Internship Coordinator
Texas Monthly Magazine

Dear Internship Coordinator,

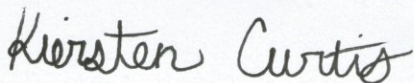

Thank you for the opportunity to apply for the Art Internship role at your company. After reviewing your job description, it is clear you are looking for a candidate who is extremely familiar with Photoshop, InDesign, etc., and can perform them confidently and efficiently. Given these requirements, I am certain I have the necessary skills to successfully do the job adeptly and achieve said expectations.

My interest in interning at Texas Monthly began with your August, 2014 Issue titled "Our Favorite Places." You captured different aspects from people living in Texas and it opened my eyes to new horizons. The particular article titled "Land That We Love," gave a new perspective on the way people see this state and how the simplest views and places affect people differently.

I am a hard working college student (Bachelor of Arts in Creative Media Industries) currently attending Texas Tech University. I took a photography course over the summer which lead me and my fellow classmates all over West Texas. The journey gave me new insights on how to handle actual onsite assignments for potential employers such as you. During the course of my academic career, I also managed to accrue nearly 4 years of work experience. Recently, I have had the privilege of working for Miss Robin's Day School in a teacher's assistant position in my free time, where I learned professional skills such as consumer management, conflict resolution, and lifelong learning. Whether working on academic, extracurricular, or professional projects, I apply proven creative thinking, teamwork, and organization skills, which I know I can leverage into the Art Internship position at your company.

I will call next week to see if we can schedule an interview. Thank you for your time and consideration.

Sincerely,

A handwritten signature in black ink that reads "Kiersten Curtis". The script is cursive and fluid, with the first name and last name clearly distinguishable.
